

2010 GREEN LAKE HOLY SPIRIT CONFERENCE PRAISE REPORTS

- Fresh filling.
- This week has totally changed my life.
- Certainly a distinctive, substantive event with life-changing content
- Wow, what a phenomenal experience! The sessions were awesome, the worship services amazing.
- Healing, confirmative, and supportive to the ministry.
- God worked in my life giving me gifts, using me in praying for others in the gift of healing with victory receiving a physical healing.
- Very restful, refreshing and energizing.
- I received two accurate words of knowledge from two different people.
- This is my second year coming and each time it increased my faith and urges me to continue forward with my ministry, full of new wisdom and energy.
- Workshops on worship were awesome and uplifting.
- Thank you for your openness to all denominations. I really see a modeling of catholic (small "c") church: Body of Christ, Spirit-filled and Spirit led to the glory of God the Father. How exciting to see all ages, circumstance, and ethnicities represented.
Well balanced: theology-Bible- Spirit- gifts.
Well balanced: workshops-groups- downtime. I really liked the a.m. sessions.
Well balanced: afternoon off and evening session.
Well balanced: international-national-local leaders [presenters].
Well balanced: worship-study-small groups and prayer.
Everything is clean and cared for and well organized.
- Thank you for empowering laity and clergy in spiritual "work" i.e. deliverance (rarely talked about, let alone solid training); worship; church leadership; personal work with Triune God, marriages.
- Much answered prayer and ministry in the small group time.
- The cartilage between the vertebrae in my upper back has almost disappeared. Consequently I have pain in that area. On Monday evening the pain was quite severe. Some people prayed for me and I was healed- immediate pain relief!
- Encouragement...a lot was clarified. Now I remember that the Lord can use me in ways that the world and the church had almost convinced me that the Lord would not do anymore.
- My experience here will forever change my life! I was healed of depression, pain in my shoulder and whole body. I also made a ton of friends. I'm thinking of attending RMS [Redeemer Ministry School]. Amazing is the only word that come to mind. I'll be back! I'm finally free! Thank you.
- I was moved to tears each night by the beautiful words and messages of the praise songs. Thank you music team for your faithful ministry!
- We came with a concern for our business and finances. God has always faithfully provided but we have a chance to pull ahead permanently. A woman sitting next to me gave me a word from

the Lord that addressed our situation (she didn't know us!) The next day we got a positive sign. However this turns out we know God will provide in all ways and we are now prepared to accept God's will and to serve him in whatever way He wants.

- The workshop selection was outstanding but the selection was trumped by the quality. Great job!
- Worship was great!
- Experienced power of the Holy Spirit in new ways.
- Several people in our house were healed and that was *very* exciting! Praise God!
- I have finally experienced God as my Dad. I have always known Him as Dad, talked to and acted with Him as my father, but now I've *experienced* it- I *know* it- I *feel* it...
- Dr Lee Spitzer is a master teacher and helped me understand the levels of friendship. I never thought about what level of friendship I had with the Holy Spirit.
- It was just what I needed in regards to burnout, inner healing and anointing for what God has called me to do. I really like the Share and Prayer groups.
- Truly a renewal in my walk with the Lord. It was absolutely awesome.
- I received a healing!! PTL
- My mom is feeling great – was able to climb to and up the Judson Tower without pain. (She has been in pain for years and no medical relief.)
- Really great speakers!
- Powerful teachings!
- Good workshop choices.
- Healing of jaw and shoulder began this week.
- Healings and moves of the Spirit have been increasing for our church recently and rose to a beautiful crescendo at our conference. Very excited to put into practice all we've learned and had imparted to us.
- Holy Spirit gave more revelation in a mighty powerful way.
- During the time of impartation God overwhelmed me with His presence. It was so intense that I didn't think I could stand it.
- Randy Clark brought both biblical insight and impartation.
